

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

TABLE OF CONTENTS.*

Publications No. 6 (January 5, 1890).

	PAGE
Note on the Densities of the Planets. By DANIEL KIRKWOOD, LL. D.....	1
A New and Simple form of Electric Control for Equatorial Driving-Clocks. By JAMES E. KEELER.....	3
Full-page plate of Driving-Clock of the 36-inch Equatorial, to face page	3
Full-page plate of design of a Driving-Clock.....to face page	6
Determination of the Relation between the Exposure-Time and the Conse- quent Blackening of a Photographic Film. By ARMIN O. LEUSCHNER..	7
The Lunar Crater and Rill— <i>Hyginus</i> . By EDWARD S. HOLDEN.....	14
Physical Observations of <i>Jupiter</i> in 1889. By JAMES E. KEELER.....	15
Bright Meteor seen January 1, 1890. By C. D. PERRINE.....	16
<i>Notices from the Lick Observatory</i>	17
Photographic Photometry.....	17
Mr. BRETT on the Physical Condition of <i>Mars</i>	17
The Chief Discoverers of Comets [Table by Mr. W. F. DENNING]....	18
Contributions of RAPHAEL and of ALBRECHT DÜRER to Astronomy...	19
Photographs of the Lick Observatory.....	20
Circulation of the Publications of the Lick Observatory.....	21
Accessions to the Library by the loan of Dr. GEORGE F. BECKER.....	21
Probable Return of LEXELL's Comet. By E. E. BARNARD.....	21
Occultations of Stars (October, November, December 1889). By E. E. BARNARD.....	24
Efficiency of the Great Equatorial. By J. E. KEELER.....	25
The Companion to the Observatory.....	26
Orbit and Mass of <i>Algol</i> [Dr. H. C. VOGEL].....	27
Programme for Meridian Observations of Stars at the Lick Observatory..	27
Note on the Solar Eclipse of December 21, 1889.....	32
Full-page plate of the Comet Medal.....to face page	32
<i>Minutes of a Special Meeting of the Directors A. S. P.</i> (December 12, 1889)..	33
Resolutions and Conditions relating to the ALEXANDER MONTGOMERY Fund	33
<i>Minutes of the Meeting of the Directors A. S. P.</i> (January 25, 1890).....	34
Resolutions relating to the use of the ALEXANDER MONTGOMERY Fund to establish a Library.....	34
Proposed By-Laws of the Astronomical Society of the Pacific.....	34

* To the Binder: this should precede page 1, volume II.

Publications of the

<i>Minutes of the Meeting of the A. S. P.</i> (January 25, 1890).....	37
List of Members elected.....	37
Note on the Solar Eclipse of December 21, 1889.....	38
Officers of the Society, etc.....	39

Publications No. 7 (March 29, 1890).

Die Astronomische Gesellschaft. By Dr. HEINRICH KREUTZ.....	41
On the Orbit of <i>Mu Herculis</i> . By ARMIN O. LEUSCHNER.....	46
On the Similarity of Certain Orbits in the Zone of Asteroids. By DANIEL KIRKWOOD, LL. D.	48
Address of the Retiring President at the Second Annual Meeting (March 29, 1890). By EDWARD S. HOLDEN... ..	50
Full-page views of Mount Hamilton, etc., to face pages 53, 55, 57, 59 61, 63, 65, 67.	
A Mechanical Theory of the Solar Corona. By J. M. SCHAEPPERLE.....	68
Full-page plate of Diagrams..... to face page 68	
Photometry of the Corona of December, 1889. By EDWARD S. HOLDEN..	69
<i>Notices from the Lick Observatory</i>	70
International Congress of Celestial Photography.....	70
Earthquake Observations	73
List of Earthquakes in California during 1889. By J. E. KEELER.....	74
Determination of the Longitude of Mount Hamilton.....	76
The Red Spot on <i>Jupiter</i>	77
Table of Constants relating to the Sun [after Prof. C. A. YOUNG].....	77
Table of Constants relating to the Moon [after E. NEISON].....	78
Announcement of the Discovery of the Rotation Period of <i>Mercury</i> [by Professor SCHIAPARELLI]. Abstract by EDWARD S. HOLDEN... ..	79
<i>Minutes of the Meeting of the Directors A. S. P.</i> (March 29, 1890).....	83
<i>Minutes of the Meeting of the A. S. P.</i> (March 29, 1890).....	83
Annual Report of the Treasurer and audit of his accounts.....	84
List of the Members Astronomical Society of the Pacific.....	85
List of Corresponding Observatories	89
Officers of the Society, etc.....	92

Publications No. 8 (May 31, 1890).

Some copies have a Silver Print of the Corona of December, 1889. By S. W. BURNHAM..... to face page 93	
Eclipse of December 21, 1889. By EDWARD S. HOLDEN.....	93
The Astronomical Society of Camden, New Jersey. By A. B. DEPUY.....	97
Elements of Comet Brooks (March 19, 1890). By ARMIN O. LEUSCHNER..	98
Award of the DONOHUE Comet Medal to Professor W. R. BROOKS.....	99

Astronomical Society of the Pacific.

v

Translations of Articles in Foreign Journals for the Astronomical Society of the Pacific. (Note from the Publication Committee).....	99
On the Criterion of Continuity of Functions of a Real Variable, and on the Theorem of Mean Value. By IRVING STRINGHAM, Ph. D.....	100
Does the Color of a Star indicate its Age? By WILLIAM M. PIERSON.....	105
Note on the Definition, the Resolving Power and the Accuracy of Telescopes, etc. By Professor A. A. MICHELSON.....	115
<i>Notices from the Lick Observatory</i>	118
Indexes to Scientific Periodicals. By EDWARD S. HOLDEN.....	118
Index to the Uranometries of ARGELANDER and GOULD.....	118
Index to CHACORNAC'S Charts.....	121
Index to PETERS' Charts.....	123
Index to PALISA'S Charts.....	123
Medal of the Comet of 1680.....	124
Award of a Gold Medal to the Lick Observatory at the Paris Exposition..	125
Full-page plate.....	to face page 125
"Weighing a Double-Star" [Review of Professor PICKERING'S work on <i>Zeta Ursæ Majoris</i> , reprinted from <i>Knowledge</i>]	125
Comet Observations at Mount Hamilton during 1888-89.....	126
New Instruments for the Lick Observatory.....	128
Observatory for Napa College.....	130
Post-office at Mount Hamilton.....	130
Occultation of <i>Mars</i> by the Moon (1890, April 8).....	130
Occultation of <i>Japetus</i> (1890, April 9)	131
Contributions of ALBRECHT DÜRER to Astronomy [Note by Dr. C. H. F. PETERS]	133
Reports of the two Solar Eclipses of 1889.....	134
The California Earthquakes (1850-88) and their relation to Eclipses [by Dr. F. K. GINZEL].....	134
Variations in the Latitudes of Berlin, Potsdam, Prague and Strassburg..	135
The Latitude of Königsberg [Extracts from a review by Professor BRUNS].	135
The Latitude of Washington.....	136
Occultations of Stars (March and April, 1890). By ARMIN O. LEUSCHNER.	137
Note on Photographing the dark part of the Moon. By E. E. BARNARD.	138
How to obtain copies of Photographs taken at the Lick Observatory....	138
Companion of <i>Sirius</i> , 1890. By S. W. BURNHAM.....	138
<i>Minutes of the Meeting of the Directors A. S. P.</i> (May 31, 1890).....	139
List of Members elected May 31, 1890.....	139
<i>Minutes of the Meeting of the Society</i> (May 31, 1890).....	140
Corrections to Dr. KREUTZ'S article "Die Astronomische Gesellschaft" in Volume II, page 41.....	140
Officers of the Society, etc.....	141

Publications No. 9 (July 12, 1890).

Frontispiece: The Urania Observatory in Berlin.....	to face page 143
The Urania Gesellschaft. By Dr. M. WILHELM MEYER, Director, (translated by J. E. KEELER).....	143
Plans of the Buildings.....	to face page 145
View of the 12-inch Telescope.....	to face page 146
View of the Scientific Theatre.....	to face page 149
Solar Eclipse on the Earth seen from the Moon.....	to face page 150
Abstract of the Report for 1889 of <i>Gesellschaft Urania</i> . By EDWARD S. HOLDEN	151
Astronomical Photography at the Lick Observatory. By EDWARD S. HOLDEN.	152
Cut of the Compound Slide-Rest for carrying the Negative Plate of the 36-inch Equatorial	to face page 154
On the Chromatic Aberration of the 36-inch Refractor of the Lick Observa- tory. By JAMES E. KEELER.....	160
Are the Planets Habitable? By Rev. GEORGE M. SEARLE	165
On Hyperbo-Elliptic Functions. By Professor I. STRINGHAM, Ph. D.....	177
The System of <i>Zeta Cancri</i> . By Miss AGNES M. CLERKE.....	188
<i>Notices from the Lick Observatory</i>	191
Sketch of the Life of Professor ELIAS LOOMIS [by Professor H. A. NEWTON].....	191
The Rotation of the Sun [by Professor N. C. DUNÉR].	192
The "Square-shouldered" Aspect of <i>Saturn</i> . By EDWARD S. HOLDEN.	193
Scientific Visitors to the Lick Observatory—Mrs. R. A. PROCTOR—Dr. M. WILHELM MEYER—Mr. A. A. COMMON—Mr. W. W. CAMPBELL..	194
The Constants of the REPSOLD Meridian-Circle of the Lick Observatory.	194
The BOYDEN Premium.....	195
Comparison of the Sensitiveness of the Eye and of the Photographic Plate [by A. C. RANYARD].....	195
Corrigenda to Volume II, page 99.....	195
Value of the Micrometer-Screw of the 36-inch Equatorial. By S. W. BURNHAM	196
Records of California Earthquakes. Note by EDWARD S. HOLDEN....	196
Bands on the Planet <i>Uranus</i> . By EDWARD S. HOLDEN and J. M. SCHAEFERLE.....	197
<i>Minutes of the Meeting of the Directors A. S. P.</i> (July 12, 1890).....	198
Action relating to the care of the Library Books A. S. P. by the Mercan- tile Library Association of San Francisco.....	198
List of Members elected	198
<i>Minutes of the Meeting of the A. S. P.</i> (July 12, 1890).....	199
Officers of the Society, etc.....	200

Publications No. 10 (September 13, 1890).

Frontispiece: Drawings of Lunar Craters.....	to face page 201
Drawings of the Moon. By Professor L. WEINEK (translated by Mr. F. R. ZIEL).....	201
On the Age of Periodic Comets. By Professor DANIEL KIRKWOOD, LL. D..	214
Some Notes on Astronomy in South America. (Observatories of Cordoba, La Plata, Santiago de Chile, Astronomical Station of Harvard College Observatory, etc.) By Professor MILTON UPDEGRAFF.....	217
Corrigenda to v. OPPOLZER's "Lehrbuch zur Bahnbestimmung der Kometen und Planeten." By A. O. LEUSCHNER.....	226
Elements of Comet Coggia (July 18, 1890). By A. O. LEUSCHNER.....	237
Elements of Comet Denning (July 23, 1890). By A. O. LEUSCHNER.....	237
A Suggestion of a Way to Forward our Knowledge of the Asteroids. By RHEINHOLD SCHMIDT (English translation by Mr. OTTO V. GELDERN) ...	238
On the Photographs of the Milky Way made at the Lick Observatory in 1889. By E. E. BARNARD.....	240
Black Transit of <i>Jupiter's</i> Satellite IV. By C. B. HILL.....	244
Award of the DONOHUE Comet Medal (to W. F. DENNING, Esq., F. R. A. S.)	245
<i>Notices from the Lick Observatory</i>	246
On the Rotation Time of the Planet <i>Venus</i> [by Professor G. V. SCHIAPARELLI]	246
Observation of Small Spots on <i>Jupiter</i> . By E. E. BARNARD.....	247
White Spots on the Terminator of <i>Mars</i> . By E. S. HOLDEN, J. M. SCHAEBERLE, J. E. KEELER.....	248
Photographs of <i>Venus</i> , <i>Mercury</i> and <i>Alpha Lyrae</i> in Daylight. By EDWARD S. HOLDEN and W. W. CAMPBELL.....	249
Appointment of Mr. LEUSCHNER in the University of California.....	250
Absorption of the Photographic Rays of Light in the Earth's Atmosphere [by Dr. J. SCHEINER]......	250
Medals of the Comets of 1618 and 1680 [Extracts from letters of Professors N. C. DUNÉR and R. WOLF].....	251
The <i>Southern Cross</i> —and the Republic of Brazil.....	252
On a Black Transit of the IV Satellite of <i>Jupiter</i> (August 13, 1890). By E. E. BARNARD.....	252
Some Photographic Experiments with the Great Equatorial—The Parallax of Nebulae. By EDWARD S. HOLDEN.....	256
The Chromatic Aberration of the Pulkowa 30-inch Refractor. By J. E. KEELER.....	258
Simple Method for Pointing a Photographic Telescope during a long Exposure. By J. M. SCHAEBERLE and E. E. BARNARD.....	259
The Solar Corona. Note by J. M. SCHAEBERLE	260
Gift of an Electric-Lighting Plant to the Lick Observatory by the EDISON General Electric Company.....	260

<i>Minutes of the Meeting of the Directors A. S. P.</i> (September 13, 1890).....	261
List of Members elected, etc.....	261
<i>Minutes of the Meeting A. S. P.</i> (September 13, 1890).....	261
Circular of the Committee on the Father PERRY Memorial.....	262
Officers of the Society.....	264

Publications No. 11 (November 29, 1890).

Two full-page Plates of Drawings of <i>Jupiter</i>	to precede page 265
On the Motions of the Planetary Nebulæ in the line of Sight. By J. E. KEELER	265
On the Wave-Length of the Second Line in the Spectra of the Nebulæ. By J. E. KEELER	281
The Motion of <i>Arcturus</i> in the Line of Sight. By J. E. KEELER.....	284
The Aspect of <i>Jupiter</i> in 1889. By J. E. KEELER	286
Astronomical Instruments in course of Construction in the United States	290
Notice by the Committee on Publication.....	290
List of Instruments just completed or in course of Construction. By J. A. BRASHEAR.....	290
Observations of the Transit of <i>Jupiter's</i> Satellite IV (October 2, 1890). By C. B. HILL	291
Award of the DONOHUE Comet-Medal (to M. J. GOGGIA).....	292
<i>Notices from the Lick Observatory</i>	292
Dark Transit of the III Satellite of <i>Jupiter</i> (September 2, 1890). By E. E. BARNARD	292
Dark Transits of <i>Jupiter's</i> Satellite I (August 23 and 30, 1890). By J. E. KEELER	294
A possible Explanation of the Dark Transits of the Satellites of <i>Jupiter</i> . By J. E. KEELER.....	294
On the Explanation of the Dark Transits of <i>Jupiter's</i> Satellites. By EDWARD S. HOLDEN.....	296
Note on the Opposition of <i>Mars</i> , 1890. By Messrs. HOLDEN, SCHAE-BERLE and KEELER	299
The Future of Stellar Photography [Extract from a letter by Professor GEORGE P. BOND, written in 1857].....	300
Relation between the Colors and the Magnitudes of the Binary Stars. By EDWARD S. HOLDEN.....	303
Bright Meteor seen September 10, 1890. By H. E. WITHERSPOON....	304
LANCASTER'S List of Observatories and Astronomers, etc.	304
Number of Observers and Computers employed in the leading Observa-tories.....	304
The British Astronomical Society [Letter of E. WALTER MAUNDER]....	305
Notice Concerning the Miscellaneous Stars observed with the REPSOLD Meridian-Circle of the Lick Observatory. By EDWARD S. HOLDEN..	306

Astronomical Society of the Pacific. ix

Gift to the Lick Observatory from Miss BRUCE, of New York City.....	307
First List of Miscellaneous Stars Observed with the REPSOLD Meridian- Circle of the Lick Observatory. By J. M. SCHABERLE.....	308
Printer's Error in Professor WEINEK's Paper on Drawings of the Moon..	308
Death of Captain R. S. FLOYD, President of the Lick Trustees.....	309
<i>Minutes of the Meeting of the Directors A. S. P.</i> (November 29, 1890).....	311
List of Members elected.....	311
<i>Minutes of the Meeting of the A. S. P.</i> (November 29, 1890).....	312
Officers of the Society, etc.....	313

Publications No. 12 (December 31, 1890).

Index to Volumes I and II of the Publications A. S. P. By EDWARD S. HOLDEN.....	315
List of Errata in Volume II.....	326
Table of Contents to Volume II of the Publications A. S. P.....	iii
(to be detached and bound preceding page 1)
